Cinematic sites, built **under your name**.

For PR, branding and events agencies, and designers who are booked out. You sell the idea and hold the client. We build it at a fixed list price. You set what your client pays and keep the difference.

PRICE
Fixed per tier, in writing before your proposal goes out, if you brief us first.

WHO YOU DEAL WITH
One contact from brief to launch. Repeat partners get the same named engineer on every build.

REPLY TIME
Within one working day, Monday to Friday.

IN WRITING
On Flagship, the launch date and the phone test are in the scope and pass to your client.

YOUR CLIENT
Never sees our name, our invoice or us. NDA on request.

AFTER LAUNCH
30-day warranty. You own the code once it is paid for.

The **list**

SAME LIST FOR EVERYONE. NO WHOLESALE RATE.

WHAT	WHICH CLIENT IT SUITS	OUR PRICE TO YOU	TIME	THE PROMISE THAT PASSES TO YOUR CLIENT
Overnight Site One page, copy written	Has to be live this week: a launch, an event, a new location.	**$399**	Live in a day	Live in 24 hours or it is free. You only pay when you love it.
Engine Plus forms to CRM, booking, follow-up	A service business that needs enquiries caught and followed up.	**from $699**	2 to 4 days	Fixed price and the 30-day warranty. No extra written promise.
Storefront Custom Shopify or D2C store	A brand ready to sell online, products and photos in hand.	**from $1,500**	1 to 2 weeks	Live on the agreed date, or the last 30% is off. Live means the store takes a real order on the client's domain.
Flagship Cinematic, scroll-driven, real-time 3D	A brand launch, campaign or product reveal where the site is the centrepiece.	**from $3,000**	2 to 4 weeks	The phone test: a weight budget, a frame rate and a named phone in the scope, tested with the client watching. If it fails we keep working free for up to 30 more days and the last 30% is not due until it passes. Live on the agreed date, or the final 30% is waived, once.
Visibility Audit Google and AI search gaps	A client asking why they do not show up.	**$300**	3 to 5 days	Credited against any visibility plan.
Rank SEO, GEO and AI visibility	A client whose site works and nobody finds it.	**from $500 a month**	Ongoing	Page one for an agreed search and named in an agreed AI answer in 90 days, or we work free for up to three more months. Full terms: dappasol.com/services/seo-geo-aeo/guarantee/

Fixed scope, fixed price agreed before work starts, milestones 40, 30, 30. "From" means the smallest real version of that build. A bigger scope is a bigger number and you hear it before your proposal goes out. Clocks pause when we wait on content, assets, access or feedback past 2 working days. No promise on sales, leads, conversion or rankings beyond the terms above.
